Dear Mr. Wilson

Air-Pro, LLC is an authorized Fabricator and Distributor of Smiths Tubular Systems (Formerly Titeflex Corporation). Air-Pro, LLC is approved to direct ship and fabricate TSO-C53a and TSO-C75 130 series medium pressure, 240 series and 660 series high pressure hose assemblies under delegated terms of Smiths Tubular Systems FAA Production Approval.

The Quality Control procedures contained in Air-Pro, LLC Quality Control and Hose Procedures Manual are in accordance with FAR 21.143 and Smiths Tubular Systems requirements.

Items fabricated by Air-Pro LLC, per Smiths Tubular Systems manufacturing procedures and drawings must be identified per FAA part 21 requirements, approved drawing or contract requirements as applicable.

Identification information for product acquired from Smiths Tubular Systems is not to be removed or altered in any manner without written authorization from Smiths Tubular Systems.

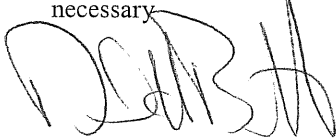

Customer packing Slips should annotate the following for TSO or PMA products:

“This Material was produced and is direct shipped under delegation terms of Smiths Tubular Systems FAA Production Approval Number PT-0287NE {or for PMA: PQ-0287NE}

Based on independent testing the DSCC has qualified and listed on applicable Qualified Product LISTS (QPL) Smiths Tubular Systems 130 series (Mil-H-25579), 240 series (SAE AS1339) and 660 series (SAE AS 604) hose assemblies as manufactured by Air-Pro LLC, using Smiths Tubular Systems approved drawings, Quality and manufacturing procedures.

This approval is based on the latest Distributors agreement between Smiths Tubular Systems and Air-Pro LLC and is contingent on this agreement remaining in place.

Air-Pro LLC assumes all responsibility of part identification, specification or contract compliance and maintaining continued government and other customer QPL approvals, authorizations, testing or requirements as necessary
